(Univerza v Mariboru)

SAFE2FOOD

Increasing the Qualifications of the Employees of
the Food Manufacturing Sector in the Areas of
Occupational Health and Safety and Food Safety

Erasmus+

2019-1-TR01-KA202-076021

CONTEXT

Most of accidents in the food industry caused by contamination, smoke, heat, noise or poisoning can be prevented by trainings. The necessity of personnel training is of great importance for both companies and consumer. To ensure occupational health and safety and prevent foodborne disease, information, instruction, training and supervision should be provided.

For less occupational accidents, fewer diseases, clean and safe workplaces and environmentally friendly practices, the company should have access to up-to-date information and appropriate methods to transfer these information to the personnel. Raising competencies of all stakeholders in mentioned areas should be carried out at European level with a simple, practical and interesting curriculum, which is a main goal of the project.

ISSUES

- Food production hazards and risks
- Food manufacturing practices and HACCP
- Occupational health and safety
- Work accident and occupational diseases
- Staff hygiene and health problems

GOALS

The final goal of the project are training materials on occupational health and safety and food safety issues.

Results

- Handbook with simple training modules
- Web platform with animated videos

This project has been funded with support from the European Commission. This publication reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

INFO

Program Erasmus+

Key action Cooperation for innovation and the exchange of good practices

Type of action Strategic partnerships for vocational education and training
